*2016 U.S. Kids Top 50 Coaches*

*TPI Certified*

I love the game of golf! I'm blessed to be able to teach players of all levels and help them enjoy the game of golf as much as I do!

I'm a Pacific Northwestener through and through! I was born and raised in Seattle, WA. My wife and I moved down down to PDX in 2013.

My background in golf instruction is formed by only two factors...Ball flight and fun! Not necessarily in that order! My personal mission statement is "what your swing looks like is a matter of preference; ball flight is a measure of skill." I teach my students to hit, high value and consistent golf shots over the course of time.

My teaching career has been shaped by many individuals with background in swing analysis, biomechanics and mental training. I incorporated many training aids and technology in my instruction, including Flightscope Launch Monitor, K-Vest 3D Motion Capture, Boditrak Pressure Mat, TPI Physical Screening and V1 Video.

As a player, I enjoy competing in regional and national golf tournaments. I'm an active competitor in PNWPGA Tournaments and Oregon Chapter PGA pro-ams.
